SKILLS

- **Languages:** JavaScript, Typescript, Python
- **Libraries/ Frameworks:** NodeJS, ExpressJS, ReactJS, Django, Tailwind CSS
- **Databases/Tools:** PostgreSQL, MongoDB, Postman, Docker

EXPERIENCE

- **Dew Solutions** Gurugram, India
Software Engineer June 2022 - Present
 - **Cilory - The Fashion Hub:** [Link](#)
 - * Worked on various components including the mobile site, desktop site and admin panel, ensuring consistent performance and usability across backend and frontend using Nodejs and Vuejs.
 - * Developed a machine learning algorithm to identify products frequently viewed together by users ('Users who viewed this also viewed...').
 - **Yoom Marketplace:**
 - * Platform enables seamless food ordering and table booking for customers, offering a wide variety of restaurant menu options. (White label / Non-white label application)
 - * Provided complete control over services through an admin panel, including restaurant tracking and subscription packages.
 - * Did third party POS integration (Kounta)
 - **ArkChat:**
 - * Contributed to developing a scalable chat application ArkChat using technologies TypeScript, ExpressJS, NodeJS, PostgreSQL, and Micro-Services.
- **Apptunix** Chandigarh, India
Backend Developer March 2021 - June 2022
 - **Tamshiyah - Bike Rental and Event Registration:**
 - * Led a project that included an admin panel, service provider panel/application, and customer application.
 - * Customer application features two tabs: Bike Rental and Event Registration. Service providers have mobile applications to receive bike rental orders and take attendance of activities, as well as a web-based application to manage their profiles and products.
 - **The Spot - On Demand Car Service:**
 - * Orchestrated the development of an admin panel, user application, and service provider application.
 - * The Spot Customers targets people in UAE for their car services.
- **Freelancer** Remote
Backend Developer Nov 2020 - Jan 2023
 - Developed various backend projects including Admin Panels/dashboards and websites using Node.js.

PERSONAL PROJECT

- **Raghav Tex** July 2024 - Present
Full Stack
 - **Textile Industry Management Application:**
 - * Developed and maintained a robust application using Django in back-end and Nextjs in front-end, ensuring efficient handling of client requests and seamless data processing.

EDUCATION

- **Jain University** Bengaluru, India
